As of June 30, 2010, the Ausy Group's consolidated revenue amounted to €95.5 million, up 32.5%. At constant scope, the Ausy Group posted 12% growth.

Following a particularly dynamic first quarter in which Ausy once again outperformed its benchmark market, (revenue up 30%, including 9.4% organic growth), growth picked up in the second quarter.

### France: revenue up 14.8%

Revenue in France was up 14.8% at €78.0 million from €68.0 million as of June 30, 2009. This rise is all the more noteworthy given that the Group had already enjoyed 4.2% growth in France in H1 2009. This momentum was mainly due to the Group's intrinsic commercial performance, with organic growth amounting to 11.8%.

### Belgium & Luxembourg: organic growth of 15.2%

Revenue in Belgium & Luxembourg in the first half of 2010 rose fourfold to €17.5 million from €4.1 million in June 2009. This sharp increase stemmed from DFC (company acquired in September 2009), the integration of which fully benefited Ausy's long-standing business, which grew 15.2% over the half.

## Outlook

Given the first half performance, the ongoing growing headcount and new accounts won, the Ausy Group reaffirms the goals of the AVENIR plan, the first milestone of which is the doubling of its revenue and headcount by end-2012.
