

PRESS RELEASE
15th January 2012

AUSY's first time turnout at the Microsoft TechDays
Date 7th – 9th February 2012

AUSY experts will welcome you at the Microsoft TechDays, during the 2nd technical session on Windows Azure

Tuesday 7th February at 1pm:

How to integrate an ASP.NET application into Windows Azure (PAR215)?

“During this session, we will reflect upon the problems that one could encounter when integrating a Web ASP.NET application into a Windows AZURE Cloud computing platform: what would be the impact on, and developments to an existing architecture? What are the most appropriate technical choices and solutions available?”

Spread the word, create some buzz, [click here](#)

“The TechDays will allow AUSY to fully reinforce its involvement in the Microsoft community. This event will also underline AUSY's proactive client approach in the Industrial and Services sectors as well as the Banking and Finance sectors,” asserts Gérald Fillon, AUSY's Executive Vice President.

AUSY develops its Microsoft offer

The package solutions offer by Microsoft AUSY will be launched during this event; it represents the latest development plans of the Group through its association with Microsoft technologies. Further, the TechDays will present the competencies of AUSY engineers and consultants in the below fields:

- Infrastructure specialisation, architecture and development (exchange, lync, sharepoint, silverlight and ASP.net in which AUSY is renowned),
- Cloud Computing **Technologies:** Azure and Office 365,
- **Solutions and mobility:** Windows Phone 7 and Windows 8 for PC tablets (Samsung), as well as others.

“The strong development of our Microsoft Technical skill centres will enable us to accompany our clients, and to provide concrete and crucial feedback on their technological projects. Such renowned expertise in systems integration and outsourcing reinforces our position with those in which we regard as our true partners,” explains Philippe Morsillo, AUSY's CEO.

Test your IQ

The AUSY team will welcome you on 7th, 8th and 9th of February **in the “Development and Applications” zone**, on the second floor of the Parisian convention centre, ‘Palais de Congrès’: concrete projects will be presented and AUSY will give all visitors the opportunity to test their **Microsoft IQ**.

AUSY Recruitment

Please don't hesitate to send your CV to techdays-microsoft@ausy.com

AUSY: A major player in innovation

Since 2007, AUSY has experienced strong and constant growth in its fields of expertise and its workforce now exceeds 3,500. Further, AUSY continues to develop **in two major domains: Information Systems** (Infrastructure, Management and Organization of Information Systems) and **Complex Industrial Systems** (Hardware, Software, Electronics, Mechanical Engineering, Energy and Telecommunications). **AUSY has been a Microsoft partner since 2006 and has renewed its partnership as a Microsoft Gold Partner. The Group has developed its competencies in 8 major fields:** Software Development, Web Development, Systems Management, Application Integration, Portals and Collaboration, Desktop, Business Intelligence. The company is quoted rank C of the NYSE Euronext Paris stock exchange and has been labelled “Innovative Enterprise” by OSEO Innovation.
